WORK EXPERIENCE

Email Overdrive

2025 - Present

Full-Stack Developer

Dagupan City, Pangasinan

- Developed and maintained full-stack web features using React and Laravel for internal workflow tools across multiple business processes.
- Handled frontend pages, backend API integrations, database-driven functions, reusable components, bug fixes, and workflow improvements for daily operations.
- Improved workflow reliability, system usability, and data flow by reducing recurring issues and keeping internal tools stable for team use.

JCreative Web

2022 - 2023

Frontend Developer

Irosin, Sorsogon

- Built responsive web interfaces using React and Next.js for client-facing projects across desktop and mobile devices.
- Connected frontend components with Laravel backend features, reusable UI elements, page layouts, and application functionality.
- Enhanced usability, project organization, and client review readiness by maintaining consistent layouts and functional web pages.
